## PROFILE

---

Cloud Engineer with hands-on experience in Azure and a strong foundation in full-stack web development. Adept at implementing cloud infrastructure, managing resources, and maintaining security protocols. Trained at Holberton School with a focus on practical skills in web and cloud technologies.

## EDUCATION

---

### **Holberton, Tulsa, OK - Diploma in Computer Science & Full-Stack Web Development | Sep 2022 - Present**

Enrolled in an immersive, intensive, project-based software engineering program that covers the breadth and depth of full-stack development. The curriculum is rooted in hands-on learning, emphasizing real-world applications and practices. From intricate front-end design to optimized back-end solutions, the program provides comprehensive exposure to essential tools and languages, fostering both creativity and critical problem-solving skills.

### **Oral Roberts University, Tulsa, OK - Bachelors of Science in Cinema/TV & Digital Media | Aug 2013 - Mar 2017**

Undertook a comprehensive program emphasizing both the art and science of media production. This multidisciplinary degree equipped me with the skills to conceptualize, produce, and edit cinematic content, whilst providing a deep understanding of the evolving digital media landscape. The fusion of theory, practical assignments, and real-world experiences culminated in a holistic understanding of storytelling in the digital age.

## TECHNOLOGIES

---

- **Cloud Technologies:** Azure, Resource Management, Virtual Machines, Cloud Security
- **Front-End:** HTML/CSS, JavaScript, Bootstrap, jQuery, React, Node.js
- **Back-End:** Python, Node.js, SQL, NoSQL, Firebase
- **Tools & Others:** Git, Bash scripting, Adobe Creative Suite, Azure Suite

## PROJECTS

---

### **Azure Foundations: AZ-104 Certification Preparation**

- Currently engaged in a comprehensive study journey toward the Microsoft Azure AZ-104 certification.
- Focusing on mastering various facets of Azure services, from managing Azure identities and governance to implementing and managing storage, configuring virtual networks, and VM management.
- Gaining hands-on experience through labs, cultivating a growing understanding of Azure cloud solutions.
- Aiming to acquire skills to architect, deploy, and manage applications on Azure's ecosystem, as part of my ongoing immersion into cloud computing.

## PROJECTS (Continued)

---

### E-commerce Website for Enchanted Artifacts - Secretum Ministerium

[github.com/FosterClark48/secretum-ministerium](https://github.com/FosterClark48/secretum-ministerium)

- Co-developed a fully responsive e-commerce platform that sells enchanted artifacts aimed at providing safety and protection to customers.
- Utilized HTML, CSS, JavaScript, and JQuery for front-end development, incorporating Bootstrap 5 for responsive design.
- Integrated Firebase for real-time data handling and utilized Midjourney AI for enhanced user experience.
- Employed Procreate for custom graphics and illustrations, enhancing the site's visual appeal.

### RETURN - A Collaborative Fast-Paced Game Development Project

[github.com/FosterClark48/return\\_game](https://github.com/FosterClark48/return_game)

- Participated in a rapid game development sprint using Unity, mastered in just two days.
- Collaborated with a team of two other developers, achieving a MVP game within five days and presenting on the seventh.
- Played a versatile role, handling scripting, character movements, object interactions, camera control, and respawn/checkpoint mechanisms.
- Successfully delivered a functional game showcasing technical skills and adaptability under tight deadlines.

## WORK EXPERIENCE

---

### ● 2019 - Present

#### Wedding Videographer

Complete Weddings +  
Events

- Coordinate with clients to prepare details & establish a meaningful relationship ensuring smooth execution on the event day
- Ensure equipment readiness, maintenance, and setup before each event to capture high-quality footage
- Manage on-the-spot decision-making to capture key moments, adjusting for lighting, movement, and event dynamics
- Lead in post-production processes, employing advanced editing techniques to produce memorable videos.

### ● 2022 - Present

#### Video Editor

Rolling Productions

- Utilize advanced editing software like Adobe Suite & DaVinci to edit and enhance videos for various clients
- Create various types of videos catering to different audiences, from promotional content to instructional and educational videos
- Collaborate with content creators, understanding their vision and suggesting edits that enhance the narrative
- Handle multiple projects simultaneously, showcasing strong time management and prioritization skills
